

Java + Spring Boot Full Stack Roadmap

Phase 1 - Java Fundamentals

- JDK JRE JVM
- Data Types
- Operators
- Control Statements
- Arrays & Strings

Phase 2 - OOP Concepts

- Class & Object
- Inheritance
- Polymorphism
- Abstraction
- Encapsulation

Phase 3 - Advanced Java

- Collections
- Generics
- Exception Handling
- Multithreading
- Streams API
- Lambda

Phase 4 - Database Integration

- JDBC
- Connection Pooling
- SQL Basics

Phase 5 - Spring Core

- IoC
- Dependency Injection
- Bean Lifecycle
- Annotations

Phase 6 - Spring Boot

- Starters

- Auto Configuration
- Profiles
- Actuator

Phase 7 - REST API Development

- Controllers
- DTOs
- Validation
- Exception Handling

Phase 8 - Data JPA

- Entities
- Repositories
- Relationships
- Transactions

Phase 9 - Security

- Spring Security
- JWT
- OAuth2

Phase 10 - Microservices

- Eureka
- Config Server
- Feign
- Gateway
- Resilience4j

Phase 11 - Messaging

- Kafka
- RabbitMQ

Phase 12 - Testing

- JUnit 5
- Mockito
- Integration Testing

Phase 13 - Deployment

- Docker
- Kubernetes
- CI/CD

Phase 14 - Interview Preparation

- Java Questions
- Spring Boot Questions
- Coding & Scenarios
