

# Cyber Security Roadmap

## Phase 1 - Foundations

- Networking Basics
- TCP/IP
- OSI Model
- Linux Fundamentals

## Phase 2 - Security Basics

- CIA Triad
- Risk Management
- Threats & Vulnerabilities
- Security Policies

## Phase 3 - Network Security

- Firewalls
- IDS/IPS
- VPN
- Network Monitoring

## Phase 4 - Web Security

- OWASP Top 10
- XSS
- CSRF
- SQL Injection

## Phase 5 - Cryptography

- Encryption
- Hashing
- Digital Signatures
- PKI

## Phase 6 - Ethical Hacking

- Reconnaissance
- Scanning
- Enumeration
- Exploitation Basics

## **Phase 7 - Security Tools**

- Wireshark
- Nmap
- Burp Suite
- Metasploit

## **Phase 8 - Cloud Security**

- AWS Security
- Azure Security
- Identity Management

## **Phase 9 - Incident Response**

- Log Analysis
- SOC Concepts
- Threat Hunting

## **Phase 10 - Governance & Compliance**

- ISO 27001
- NIST
- GDPR Basics

## **Phase 11 - Certifications**

- Security+
- CEH
- CySA+
- CISSP Overview

## **Phase 12 - Interview Preparation**

- Security Scenarios
- Common Interview Questions
- Case Studies
